MAXDATA FAVORIT 100XS

Beautiful mini PC with outstanding features

The MAXDATA FAVORIT 100 XS is the right choice for demanding users who value space-saving and design-led solutions. As a result of its minimal dimensions the PC can be used everywhere and captures attention in any workspace as a result of its fine design.
Equipped with an Intel® processor and Intel® 945GM onboard graphics, the MAXDATA FAVORIT 100 XS provides persuasive performance for small/home office use. Mobile technology forms the basis for this particularly quiet mini PC, which is thus ideally suited to volume sensitive environments. The PC's interfaces enable numerous peripherals to be connected quickly and easily.
Its excellent processing makes the MAXDATA FAVORIT 100 XS a prestigious PC system at an attractive price.

Highlights

- **Ultra-compact dimensions and sophisticated design**
- **Excellent features**
- **Can be used flexibly**

Application areas

- **Design-led workstations**
- **Workstations with limited space**
- **For small/home offices**
